Source: CLASP calculations based on Table 4A, TANF - Average Monthly Number Of Adults Engaged In Work By Work Activity For Families Counted As Meeting The All Families Work Requirements, Fiscal Year 2004, Administration for Children and Families, HHS, available at: http://www.acf.hhs.gov/programs/ofa/particip/indexparticip.htm#2004

How to read this table: an example In fiscal year 2004, there were 7,893 families in Alabama's participation rate calculation, and 2,990 of these families participated in work. Thus Alabama's participation rate was 37.9 percent. 1,884 families in Alabama were participating in unsubsidized employment. Thus 23.9 percent of families in the participation rate calculation were participating in unsubsidized employment (1,884/7,893= 23.9 percent)
